ASSEMBLY INSTRUCTIONS

1.

Screw four pieces Leveling Feet (F) into the bottom of each Lower Pole (D). And snap the Plastic Clips (E) on the grooves of each lower pole at the same position. Make sure the arrow of all the plastic clips (E) should be pointed up.

2.

Make sure that you have the Wire Shelf (A) the correct way up. Place the shelf on its long side, hold and slide the top of four lower poles (D) through the bottom of each shelf at its corners until there is snug fit. After the four poles have been slid through the shelf collar holes, set the shelf upright.

3.

Refer to the Step (1) to snap plastic clips (E) on the grooves of four pieces lower poles (D) at your desired position for next wire shelf. Slide down the next wire shelf (A) from the top of each lower pole (D) down onto the plastic clips (E).

4.

Screw Middle Poles (C) into lower poles (D) by screw connectors which are already assembled on the middle poles (C). And then screw Upper Poles (B) into middle poles (C) by screw connectors which are already assembled on the upper poles (B).
